	Rocks Municipality 5,000 rupees. Banjar lands to the extent of 500 acres will yield a revenue of 10,000 rupees, and wet cultivation will be increased.	
Subject No. 515. Construction of an anicut across the Chickadevarayasagara channel. Mr. Narasimha Krishnamachar and Mr. Narasimhe Gowda of Seringapatam Taluk.	If the proposal to repair the above channel is not viewed with favor, an anicut may be built across the Chickadevarayasagara channel near Sitapurada anicut, in order to supply water to French Rocks (Hirode) and seven other villages where the scarcity of water is much felt.	
Subject No. 516. Extension of Hemavati and Mandakere Channels. Mr. Hebbal Krishnappa of Krishnarajpet Taluk.	The Hemavati and Mandakere channels may be extended for 5 or 6 miles more.	
Subject No. 517. Bridging of the Lokapavani River at Honakere. Mr. Chandrasekharaiya of Nagamangala Taluk	The Lokapavani river near Honakere lies across the Mysore-Bellary high road and greatly impedes traffic during flood. The construction of a bridge at that spot is therefore necessary.	
Subject No. 518. Restoration of certain tanks. Mr. Chandrasekharaiya of Nagamangala Taluk.	The following tanks may be restored by Government, raiyats paying contribution for some of them as shown below :—	Referred to the D. P. W.
	1. Anche Chittanahalli—contribution at Rs. 10 per acre. 2. Tholalakere—contribution at Rs. 20 per acre. 3. Yegatchallikere—Nil. 4. Yegatekere „ 5. Hutchakere „ 6. Bommadihalli Doddakere—Nil. 7. Hidavadakere „ 8. Bommanahallikere „ 9. Bhimanahalli ane „ 10. Honnavarada Hulikere (raising of waste weir and bund) „ 11. Chennapurada ane „ 12. Heraganahalli, Thigalanahalli and Honnahalli tank channels—Nil. 13. Bettadakotekere „ 14. Karbyle ane „	
Subject No. 519. Construction of an anicut across the Shimsha River. Mr. Chandrasekhariya of Nagamangala Taluk.	The construction of an anicut across the Shimsha river near Murankanahalli in the Kunigal Taluk would be highly beneficial to the raiyats of a large number of

	villages in both Kunigal and Nagamangala Taluks.	
Subject No. 520 Raising of the Kodi and bund of the Devalapur Tank. Mr. Chandrasekharaiya of Nagamangala Taluk.	The kodi and bund of Devalapur tank should be raised so as to ensure a sufficient supply of water to the rice lands below it.	
Subject No. 521 Restoration of Rayankere Tank. Mr. Shanbhog Linganaiya and Mr. Anandalwar of Mandya Taluk.	Owing to the scarcity of water in the Dudda, Basaral and Muttegere hoblis, the Government on a former occasion had an estimate prepared for restoring the ruined tank known as the 'Rayankere' situated above the Basaralhosakere, Muttegere Hirikere and Dasankere tanks and excavating therefrom three channels, one going to Dudda sammat, another to Honakere and Devalapur sammats of the Nagamangala Taluk and the third to Basaral and Muttegere tanks. No further action seems to have been taken in the matter. The project deserves early investigation, since by its execution 10 or 12 tanks can be easily filled to the great advantage of both raiyats and Government.	Referred to the D. P. W.
Subject No. 522 Extension of the Maddur Noth Channel. Mr. Anandalwar of Mandya Taluk.	The Maddur Northern extension channel work may be ordered to be pushed on vigorously.	
Subject No. 523 Restoration of Bhimankere and other tanks. Mr. Anandalwar of Mandya Taluk.	The early restoration of Bhimankere and other tanks as represented last year is desirable.	
Subject No. 524 Restoration of a ruined tank near Kolinagardurga in Mandya Taluk. Mr. Anandalwar of Mandya Taluk.	Near Kolinagardurga in the Mandya Taluk there is a ruined tank. If restored at a small cost, about three or four hundred acres of land could be brought under wet cultivation.	
Subject No. 525 Water-supply for Kasaba Malavlli and Marehalli tanks. Mr. Shanbhog Ramaiya and Mr. Shanbhog Narasimha Murti of Malavalli Taluk.	The kasaba Malavalli and Marahalli tanks do not now receive a sufficient supply of water. Formerly they used to be fed by a channel drawn from the Cauvery river. This channel is not now in action. The rice lands under these tanks suffer much for want of water. The Public Works	Referred to the D. P. W. for investigation.
